

Streamlined Partner Collaboration for SAP®

Protera *partnerportal* 

Protera Partnerportal simplifies collaboration between SAP organizations and their customers by enabling e-commerce capabilities through a cloud-based, mobile-friendly portal that integrates seamlessly with SAP.

Collaboration

Empower your customers to seamlessly collaborate with you throughout every step of the process, from order creation to invoice payments

Data Integrity

Provide up-to-date, customer specific product pricing and availability directly from your SAP system, and reduce errors with real-time data validation

Security

With a BTP-based solution, users can securely participate in the order fulfillment process without needing direct login access to your SAP system

Low Maintenance

Leverage your existing SAP data, configuration, and processes, eliminating the need for a complex third-party ecommerce platform

Efficiency

Minimize phone calls and emails by providing customers with relevant information at their fingertips

Visibility

Gain a 360-degree view of your customers' activities, including order history, credit usage, and AR aging

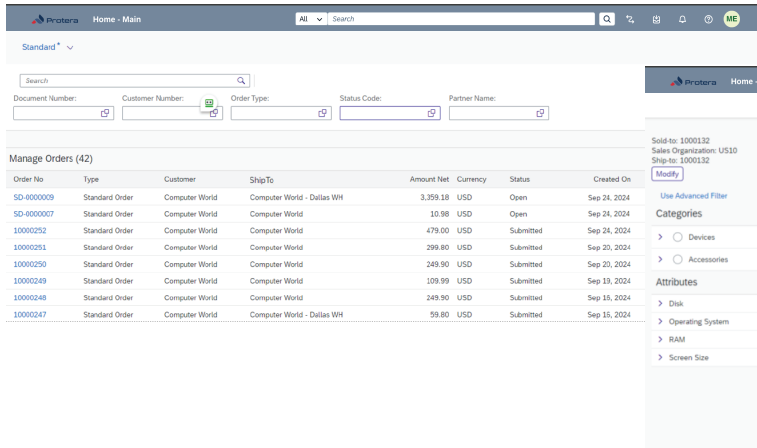

Integration

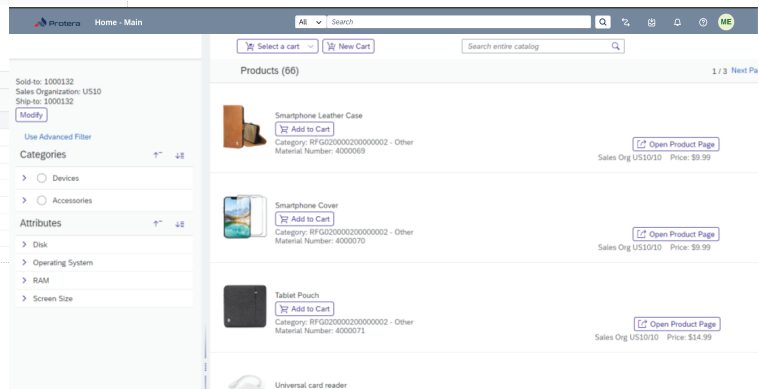

Seamlessly integrate with SAP ECC® or SAP S/4 HANA® in real-time

Intuitive UI | Personalized Experience Mobile-ready | Real-time SAP Integration

Protera Partnerportal® runs on the SAP Business Technology Platform®, so it integrates natively with SAP, and it can run side by side with your other SAP applications.
