- BTP Integration Suite
- Cloud Foundry

## Core Protera SAP Solutions

#### SAP BTP Services

Revolutionize business operations with SAP BTP functionality. Protera brings structure to AI & BTP integration, with expert guidance at every stage of the SAP BTP journey.

#### SAP Security

Managed SAP Security services architected to safeguard critical SAP systems, manage user and role changes, and promote compliance, alleviating internal resource burdens.

#### SAP Technical Services

Protera delivers proactive SAP Technical Services to keep your critical SAP workloads secure, available, and optimized, ensuring your SAP landscape aligns with your business operations and strategic goals.

# SAP Services & Solutions

## Protera's enhanced services for 2026

### MANUFACTURING

#### AI Support Agent

Heavy machinery manufacturer's SAP BTP Portal supports over 2,000 users, but resolving issues was slow and inefficient.

Protera developed an AI chatbot to streamline ticket creation, facilitate troubleshooting, and accelerate resolution by answering common questions using knowledgebases, troubleshooting errors, and submitting ServiceNow tickets automatically, with full session data.

#### OUTCOMES

- Decreased ticket count
- Reduced time spent submitting & clarifying issues
- Reduced mean time to resolution (MTTR)

### FOOD & BEVERAGE

#### SAP Modernization

A long-term client, Protera has been a trusted partner as the customer modernized from SAP ECC on-premise to SAP S/4 on Azure, part of a long-term journey to SAP Cloud ERP.

Protera designed & executed non-disruptive migrations of SAP and friends, provides ongoing cloud and technical support, and has leveraged BTP to develop workflow optimizations, including Redfig Partnerportal.

#### OUTCOMES

- 2x performance improvement in SAP processing
- S/4HANA on Azure highly integrated across apps
- Leverages AI and automation to improve efficiency

### HOSPITALITY

#### AI Document Management

Protera's client receives many documents from customers and vendors that do not have EDI. As a result, the client has teams that process documents/emails, request clarifications, and manually enter data.

Protera developed an AI-powered document ingestion platform that includes SAP document creation, an agentic node that receives SAP business context for automated decision-making, KPI dashboards, with plans to expand with additional business processes.

#### OUTCOMES

- 80% document first-run success
- 25% increase in documents processed/week
- Reduced processing costs by orders of magnitude

### AUTOMOTIVE

#### SAP Migration & Optimization

Protera has established a long-term partnership with the client, actioning the joint goal of maximizing the value of SAP to the enterprise and progressing a strategic SAP modernization roadmap.

Protera has migrated SAP to native Azure and RISE with SAP. In addition, our SAP teams have supported clean core projects, provided ongoing BASIS support, and architected and implemented new SAP features with Cloud ALM.

#### OUTCOMES

- Enhanced flexibility & scalability
- SAP processing improvement with new platform
- SLA & KPI improvement
